Airport Bulletin # 17 - 16

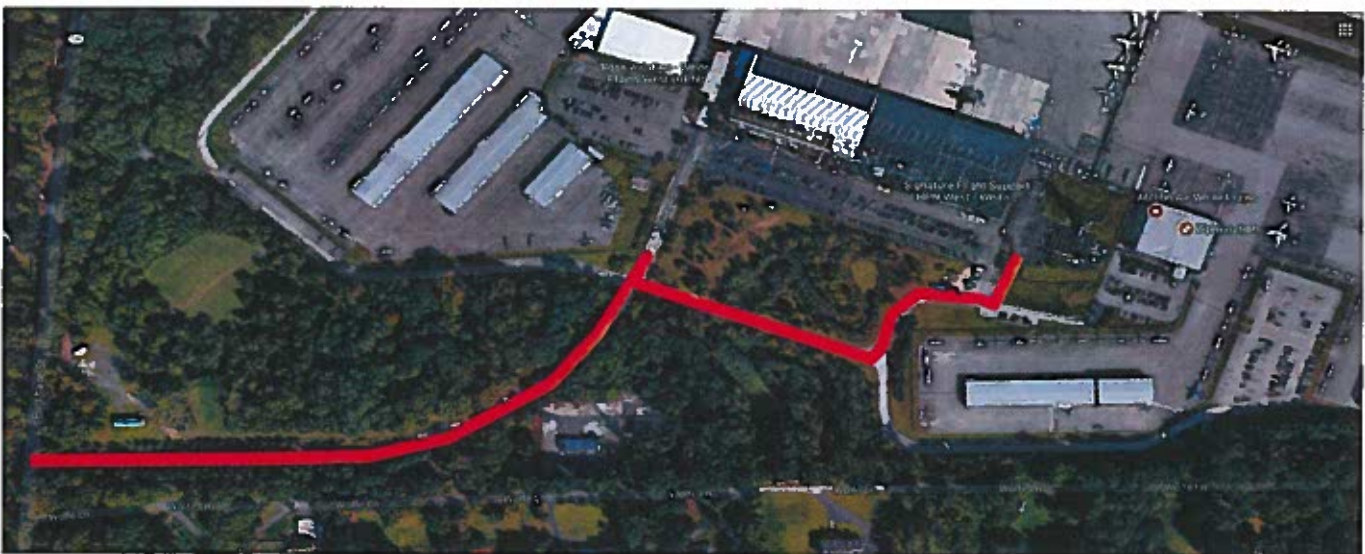

Rehabilitation of Tower Road

On Monday, October 23, 2017 at 0700 local time the airport will commence the Rehabilitation of Tower Road Project. Rehabilitation work will involve construction personnel using excavation equipment and vehicles and will be ongoing Monday thru Friday during the daytime hours until completion in early December 2017. This short duration project will provide the following upgrades:

- Installation of new storm water drainage structures
- Excavation and installation of vehicle pull-off areas
- Repaving and widening of the Tower Road
- Installation of new LED overhead road lighting
- New grass shoulders

During this project, construction vehicles, equipment and materials will be staged on the shoulders of Tower Road. We are notifying all vehicle operators to use extreme caution when travelling on Tower Road and expect the road to be open at all times with Flagman coordinating traffic during all construction activities.

We appreciate your cooperation while these important upgrades and improvements are being made. If you have any questions, please contact Airport Operations at (914) 995-4850.

John Starace
Operations Manager
